Dear Puan Suriani

I am pleased to inform you that your application for membership to the Institute was considered and you have been elected as a **Member** (Membership No. 1207) of the Institute.

As a member you will be entitled to all the benefits as member of the Institute. This will include receiving newsletters and other publications of the Institute together with the right of using the designation of **MIPM** after your name.

If you have any query regarding your membership, please do not hesitate to write to us. We welcome you once again as a member of the Institute and hope you will participate actively in the functions and other activities of the Institute.

Thank you

Yours sincerely

Prof. Kurunathan Ratnavelu
Hon. Secretary

N.B. Approval has been obtained from Jabatan Hasil Dalam Negeri that IFM subscription can be deducted for income tax purposes. Please quote **KL/A/141 Vol. 11** in your income tax return.

Year of Light 2015

Date : 20 April 2015

Dear MRS SURIANI BINTI ABU BAKAR,

On behalf of Institut Fizik Malaysia (IFM) Council, I am delighted to inform you that we have reached the milestone of 1300 members in Sept 2014.

Though physics as a discipline has faced some challenges in Malaysia, there is always some demand for physicists in the industries, research institutes and institutions of higher education. We are glad to note that in the last few years, there have been a number of Physics graduates who have joined IFM.

In support of eco-friendly initiatives, we would like to communicate with all members via email in the future and would appreciate it if you could kindly update your particulars in the reply slip attached or send to ifmalaysia2014@gmail.com.

We take this opportunity to thank you for your continued support of IFM and we wish you all the best in 2015 and hope to meet you at the next Annual General Meeting in May 2015.

Yours faithfully,
Kuru Ratnavelu
IFM President
