Dear Assoc. Prof. Suriani Abu Bakar,

Many thanks for responding to the email regarding joining the *Cogent Physics* board, and I am delighted to welcome you to the editorial team. If you are still interested in joining the editorial team, then please could you confirm the journal section you would like to be primarily associated with, or let me know if you feel that none of the following sections apply to your research area. The sections are as follows: *Astronomy & Astrophysics*; *Atomic, Molecular & Optical Physics*; *Condensed Matter Physics*; *Interdisciplinary Physics*; *Materials Science*; *Nuclear Physics*; and *Particle Physics*.

All editors are welcome and encouraged to submit their own group's work to the journal, propose themed special issues, invite other authors, and generally alert their networks about the journal. So please do not hesitate to get in touch if you have any ideas or suggestions. Additionally, as an editor you may also be asked to handle the peer review of an occasional paper.

You will receive your log in details for Editorial Manager in the next few days, please do let me know if you do not. I suggest that you [log in](#) and update your personal classifications and key words as this will ensure that you only receive relevant papers. I have attached our handling submissions guidelines which provides information on how to invite reviewers to a paper if you are unfamiliar with the Editorial Manager system. I have also attached our editorial policy document for editors which outlines the initial screening and peer-review process, as well as our acceptance criteria. Please do have a read through and let me know if you have any questions.

Finally, I would encourage you to have a look at our [website](#) and to sign up for the Cogent OA [newsletter](#).

I look forward to working with you.

Kind Regards

Lexie
