Ms. Ref. No.: JCLEPRO-D-16-00652

Title: Comparative analysis of separation technologies for processing CO₂ rich natural gas in ultra-deepwater oil fields

Journal of Cleaner Production

Dear Dr. Abu Bakar Suriani,

Thank you for agreeing to review manuscript number JCLEPRO-D-16-00652 for Journal of Cleaner Production.

If possible, I would appreciate receiving your review by Mar 24, 2016.

Please note that, if present, we ask you to include Highlights and the Graphical Abstract in the reviewing process.

You may submit your comments online at the Elsevier Editorial System: <http://ees.elsevier.com/jclepro/>. Please login as a Reviewer using the following username and password:

Your username is: ASuriani-860

If you need to retrieve password details, please go to: http://ees.elsevier.com/JCLEPRO/automail_query.asp

You may access the manuscript by selecting the "Pending Assignments" link on your Main Menu page. To submit your comments, please click on the "Submit Reviewer Recommendation" link. There you will find spaces for confidential comments to the editor, comments for the author and a report form to be completed. For further information, please refer to the tutorial for reviewers, which is available from the journal homepage.

As a reviewer you are entitled to access references, abstracts and full-text articles in Scopus and ScienceDirect. Your 30-day access can be activated in your "Pending Assignments" page in EES. Abstracts and full-text can be reached through the hyperlinked references, accessible by following the "View Linked References" link in the action menu of the manuscript, or via the Scopus search bar in EES.

Using your EES login details, you can access Scopus from either the url below or the Scopus search bar that will appear at the top of your assignments page in EES

www.scopus.com/reviewers

The 30 day access period will start as soon as you activate your access to Scopus, however you have the option to save your 30 day access period, but note that it will expire six months after receiving this email. Thank you in advance for your timely cooperation and for your contribution to the success of Journal of Cleaner Production.

Journal of Cleaner Production operates a manuscript transfer service to relevant title[s] in the field. This service gives authors the option, if they are unsuccessful in their original submission, to decide to have their manuscript transferred to another relevant journal without the need to resubmit or reformat.

We recognize that you are the experts in the field and we want to ensure that our editors fully utilize your comments and guidance. As such, your reviewer reports will also be internally transferred along with the manuscript to the editor of the receiving journal. This will also help to eliminate the risk of you receiving the same manuscript twice.

If you would prefer that your reviewer report is not transferred, you will be able to untick the agreement to transfer box when submitting your review.

Overall with this service we are aiming to help facilitate and develop fast, effective and truly innovative solutions to improve the overall manuscript submission and peer review process for all individuals concerned.

Thank you in advance for your cooperation.

With kind regards,

Neven Duic
Managing Guest Editor
Journal of Cleaner Production

Reviewer Guidelines are now available to help you with your review: <http://www.elsevier.com/wps/find/reviewershome.reviewers/reviewersguidelines>
